.. Not available. GNI is gross national income (gross national product, or GNP, in previous editions). PPP is purchasing power parity.

Note: Rankings include all 209 World Bank Atlas economies, but only those with confirmed Atlas GNI per capita estimates or those that rank among the top twenty are shown in rank order. Figures in italics are for 2005 or 2004. a. 2006 data not available; ranking is approximate. b. Data include the French overseas departments of French Guiana, Guadeloupe, Martinique, and Réunion. c. Estimate is based on regression; other PPP figures are extrapolated from the latest International Comparison Program benchmark estimates. d. Excludes data for Kosovo. e. Estimate is based on a 1986 bilateral comparison of China and the United States (Rouen and Kai 1995) employing a different methodology than that used for other countries. This interim methodology will be revised in the next few years. f. Data exclude Transnistria. g. Data refer to mainland Tanzania only. h. Estimated to be low income (\$905 or less). i. Estimated to be upper middle income (\$3,596 to \$11,115). j. Estimated to be high income (\$11,116 or more). k. Estimated to be lower middle income (\$906 to \$3,595).
